

Monthly Investment Report

As of August 31, 2014

This report presents the City's investment portfolio as of August 31, 2014. It includes all investments managed by the City on its own behalf. The report provides information on the institution, investment type, purchase and maturity date, value, yield for each security. As of August 31, 2014, the investment portfolio was in compliance with all State laws.

Current Portfolio Summary. Short-term excess cash is currently invested primarily in the Washington State LGIP and in the Clark County Investment Pool. Both investment pools are very high quality investments in terms of safety and liquidity. The Clark County Investment Pool is longer in average duration than the Washington State Local Government Investment Pool and therefore the current yield is slightly higher on the Clark County Investment Pool than the LGIP. The City has moved the cash required for immediate liquidity over to the Clark County Investment Pool.

The City also has 82% of its investments longer term in federal agency securities this allocation. The total federal agency securities have an unrealized gain as of August 31, 2014 of \$8,180. An unrealized gain is the amount of funds the City would receive if the City sold the securities on the reporting date. In other words, the market price on the report date was higher than the price the City purchased the securities at. The City's portfolio has a number of callable securities. The City's strategy will continue to be laddering maturities with callable securities.

The City also has 1% in Certificates of Deposit with local regional banks including Riverview Bank. As these Certificates of Deposit mature the goal would be to move the funds into federal agencies for higher interest earnings and liquidity.

The City also has a second investment portfolio for the bond reserve funds for Wastewater Treatment Plant Construction Project. These proceeds were invested an Auburn, WA Revenue Bond, and a certificate of deposit with Umpqua Bank for a total of \$361,709.

The following is a summary of the City's investments based on recorded value as of August 31, 2014 compared with the prior month:

	July 31, 2014	August 31, 2014
Investments held by the City	\$16,044,205	\$15,370,969
Investment of Bond Reserve Funds	\$361,709	\$361,709

Summary of Activity for the Month and Future Liquidity In month of August, expenditures exceeded revenues, with capital project bills due. We continue to believe the portfolio contains enough liquidity to meet the next six months of expected expenditures by the City.

Report Contents and Distribution. This report includes the following three schedules on the City's portfolio as of August 31, 2014: summary of investments held by the City; summary of investment portfolio liquidity; and detail of each investment. A listing of the individuals that routinely receive this report is provided at the end of the report.
