

Minor Home Occupation Statement of Compliance

A minor home occupation permit is required for any business operated in a dwelling unit or accessory building which has no external indication of commercial activity, including no non-resident employees, no client visits, no business-related deliveries, and no vehicle signage. No production, generation, or storage of any hazardous substances or materials beyond an amount that is commonly used for a single-family dwelling shall be permitted. Minor home occupation permits shall be subject to a Type I review in accordance with the administrative approval procedures of Camas Municipal Code (CMC) Chapter 18.55.

Applicants shall submit a completed Minor Home Occupation Statement of Compliance to the City of Camas for review and approval. There is no fee for a Minor Home Occupation, however, the form must be completed and be date stamped by the City in order to be valid. A copy of this document will be given to the applicant.

I certify that my home occupation does and will comply with these criteria (CMC 18.39.030).
