

NOTICE OF APPLICATION FOR SHORELINE SUBSTANTIAL DEVELOPMENT PERMIT AND SHORELINE VARIANCE

Lacamas North Shore Trail

(File #SHOR18-02)

The City of Camas filed an application on March 20, 2018 for a Shoreline Substantial Development Permit and Shoreline Conditional Use to construct a new section of trail to extend the existing trail system at the south end of Lacamas Lake. The new trail segment would be located on City property on the northeast side of Lacamas Lake, from an existing trail on the east side of NE Everett Street to a natural area on the lakeshore. The primary section of the trail extension, approximately 2900 feet, would traverse northwest from NE Everett Street and follow the alignment of an abandoned fire road. A spur trail, presently an unmaintained packed dirt trail, would lead to a view of Lacamas Lake approximately 300 feet southeast off the primary section. A 650-foot long loop section would be constructed between the spur and the primary trail.
