

ORDINANCE NO. 2011

AN ORDINANCE adopting the budget for the City of Camas, Washington, for the fiscal year ending December 31, 1995.

WHEREAS, the Mayor of the City of Camas, Washington completed and placed on file with the City Clerk a proposed budget and estimate of the amount of the monies required to meet the public expenses, bond retirement and interest, reserve funds and expenses of government of said City for the fiscal year ending December 31, 1995, and a Notice was published that the Council of said City would meet on the 28th day of November, 1994 at the hour of 7:00 p.m., at the Council Chambers in the City Hall of said City for the purpose of making and adopting a budget for said fiscal year and giving taxpayers within the limits of said City an opportunity to be heard upon said budget; and

WHEREAS, the said City Council did meet at said time and place and did then consider the matter of said proposed budget; and

WHEREAS, the said proposed budget does not exceed the lawful limit of taxation allowed by law to be levied on the property within the City of Camas for the purposes set forth in said budget, and the estimated expenditures set forth in said budget being all necessary to carry on the government of said City for said year and being sufficient to meet the various needs of said City during said period.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF CAMAS DO ORDAIN AS FOLLOWS:

SECTION I

The required appropriation and expenditures for the various funds and departments and needs for the operation of government of the City of Camas, for the fiscal year ending December 31, 1995, as set forth in said budget and which is hereby adopted, are fixed in the

following amounts, to wit,

<b>FUND</b>	<b>DEPARTMENT</b>	<b>AMOUNT</b>	<b>AMOUNT</b>
General	Legislative	\$ 39,100

## HOW TO USE THIS BUDGET

TITLE	INFORMATION PROVIDED
Letter of Transmittal	This letter gives a summary of what is contained in the budget and how and why it differs from previous years.
Appropriation Ordinance	A copy of the ordinance appropriating funds for operating the City for the fiscal year beginning January 1, 1995.
Property Tax Levy	A summary of total property tax levy and distribution of tax proceeds by fund.
Summary of Total Budget by Basic and Subaccount	A more detailed summary of the budget is shown here by department or subaccount.
Budget Appropriations by Fund	This exhibit shows the total amount appropriated for each City Fund.
Estimated Revenue by Fund	A complete detailed breakdown of estimated city revenue including interfund payments and transfers is shown in this schedule.

### STANDARD CLASSIFICATION OF ACCOUNTS

The City of Camas utilizes the Budgeting, Accounting, and Reporting System (BARS) prescribed by the State Auditor's Office for all cities and counties in the State of Washington. The BARS system follows generally accepted accounting methods. Emphasis is placed on programs and services or what the city and county is attempting to accomplish rather than upon subjects or individual services to be paid. The water and sewer utility follows the "Uniform System of Accounts for Class A and Class B Water Utilities" recommended by the National Association of Regulatory Commissioners.

### "DOUBLE BUDGETING"

Governmental accounting and budgeting differs from that practiced by private business in that it utilizes the "fund" system. Each fund of the City of Camas is a separate entity in itself. Money is appropriated and paid from one fund to another for services that one fund or department performs for another department.

The Equipment Rental Department appropriates money to purchase equipment, supplies and provides for employee salaries for maintaining equipment. The Street, Water-Sewer, Sanitary, Police and other departments appropriate funds to "rent" the equipment from the Equipment Rental Department. Both the Equipment Rental Fund appropriations and other department appropriations are required by law to be in the total budget figure in "double budgeting". The Finance Department appropriates salaries and other supplies for utility billing and accounting. The Water-Sewer and Sanitary Funds appropriate money to reimburse the General Fund for services of the Finance Department.

# CITY OF CAMAS

616 Northeast Fourth Avenue  
 P.O. Box 1055  
 Camas, Washington 98607

November 15, 1994

To the Council of the City of Camas, Washington:

The budget for the City of Camas for the fiscal year beginning January 1, 1995, is submitted on the following pages for your formal consideration and action. You have been involved in the review of the budget in the course of its preparation in previous committee meetings and work sessions. This document presents the comprehensive budget in one document.

The proposed 1995 budget is roughly \$3 million dollars lower than the 1994 amended budget. The major change in the overall budget is the Sixth Avenue realignment project, which was budgeted at \$3.3 million dollars. Because of changes in James River's Co-Generation Phase II project plans, the Sixth Avenue realignment project proved financially infeasible. The street was not rebuilt. The overall budgets - for both General Fund and All Funds - are rather stable. The General Fund total spending authority for 1995 is proposed at \$5,406,884. This compares with a figure of \$5,994,326 for 1994's General Fund. The All Funds total is proposed for 1995 at \$13,397,445, which compares with a 1994 All Funds total budget of \$16,007,370.

Total estimated uses of city funds during 1995, stated on a comparative basis with 1993 actual expenditures and 1994 amended budgeted expenditures, are as follows:

	EXPENDITURES	BUDGET	BUDGET
	1993	1994	1995
CLASSIFIED PROPRIETARY FUNDS	\$2,824,886	2,727,135	2,928,480
GENERAL GOVERNMENTAL SERVICES	896,766	985,493	885,585
SECURITY OF PERSONS AND PROPERTY	2,624,225	2,967,319	3,003,840
PHYSICAL ENVIRONMENT	1,345,777	1,382,062	1,910,088
TRANSPORTATION	1,241,020	1,543,801	558,900
ECONOMIC ENVIRONMENT	89,855	100,250	99,100
MENTAL AND PHYSICAL HEALTH	51,521	55,600	59,461
CULTURE AND RECREATION	806,882	910,968	905,478
OTHER CHARACTERS OF EXPENDITURES:			
REDEMPTION LONG TERM DEBT	94,836	105,874	111,985
INTEREST AND OTHER DEBT SERVICE	150,921	146,600	139,797
CAPITALIZED EXPENDITURES	844,320	498,500	1,711,577
ROAD AND STREET CONSTRUCTION	478,821	3,639,267	263,400
TOTAL APPROPRIATIONS	\$11,449,830	15,062,869	12,577,691
ESTIMATED OTHER FINANCING USES:			
OPERATING TRANSFERS OUT	\$ 1,369,809	944,501	450,213
TOTAL ESTIMATED USES	<u>\$12,819,639</u>	<u>16,007,370</u>	<u>13,027,904</u>

The revenue projections generally assume that current legislation will remain in place and that economic conditions still remain similar to 1993-94. The economy in the Portland Metro area, and Camas/Clark county currently appears in good condition. In the industrial sector Underwriters Laboratories completed their Phase I facility, dedicating it in September 1994. The facility is operating and adding employees. Hewlett-Packard's facility, just west of Camas, has become Clark County's largest employer with a number of workers in the range of 2,400. The facility specializes in computer printers which have been very well received in the marketplace. Hewlett-Packard continues to use substantial volumes of water, purchased from the City of Camas. In the fall of 1994, Furuno America, Inc., began site work on their 10 acre facility site in the business park. Linear Technology Corporation is proceeding with its plans for a major computer wafer fabrication facility in the Cascade Business Park. The company has obtained the land for the facility, and indicates plans for a site work this winter, followed by facility construction in 1995. The initial investment is estimated at upward of \$25 million and initial employment at approximately 100. Linear, a Milpitas, California based firm, is a designer/producer of high performance analog integrated circuits. Markets for their products include lap and desktop computers, medical equipment, cellular phones, and printers. The firm appears financially strong. The City Council and Planning Commission approved the site plans and various conditions of development related to Linear in the fall of 1994. A waterline project, to extend a major waterline through the business park and by the Linear site, is included in the 1995 budget. The waterline project will benefit from a favored rate loan from the State of Washington Community Economic Revitalization Board (CERB).

Other major industrial activity has taken place at the James River mill. The first phase co-generation plant was under construction in late 1993 and 1994. The Phase I project should produce in the range of 50 megawatts of electricity and help the mill be self sufficient in electricity. The estimated value of the first phase co-generation plant is in the range of 60 million dollars, according to mill officials. Prior plans for a second phase co-generation plant have been postponed indefinitely. In September 1994, the James River mill announced plans for another major reduction in employment. According to company officials, the number of employees will be reduced from early 1994 levels by about 252 employees, or 15 percent of the workforce. At this writing, it appears that the basic production and processes of the mill will continue to operate with fewer employees. James River has confirmed that the mill is for sale. James River's efforts to reduce the assessed valuation of the mill by \$200 million are underway. Pending a decision on the appealed assessment of \$200 million, the taxes attributable to that value are not paid, in accord with the provisions of RCW 84.52.018. The results of these efforts are unpredictable. The future of the mill is a major community anxiety, which underlines the importance of continuing diversification efforts.

The residential construction portion of the local economy is exceptionally strong. The number of residential building permits is a good indicator. The number of such permits was about 33 per year for the years 1988 and 1989. In 1990, 1991, and 1992 records show 71, 71, and 79 permits. In 1993, the number of such permits jumped to 127. In 1994, the number of such permits,

issued through October 31 was 231. It seems likely that the full year total of single family house permits will exceed 300 for 1994. It is possible that this trend will continue into the next year and years, and even accelerate.

#### REVENUE

The budget includes anticipated tax levy revenues of approximately \$3,209,078 for the General Fund, \$218,227 for the Emergency Rescue Fund and \$126,168 for the Unlimited General Obligation Bond Redemption Fund (repayments for the Park Bonds) and \$125,614 for the Limited General Obligation Bond Redemption Fund (repayments for Storm Sewer and Pacific Rim Blvd. CERB projects).

The final, exact amount of the tax levy is not known at this time, as final assessed value figures are not available from the County and State.

Preliminary figures from the County Assessor's office show a decidedly mixed picture of the city's assessed value in the past year. The assessor's preliminary computation shows an increase of \$81 million. This again reflected substantial, varied and strong new construction values (\$61 million) added to the tax roll. On the other hand, the \$200 million James River will appeal, and deletion of this amount from the levy computation, pending resolution of the appeal, is a daunting setback. The preliminary apparent assessed value for 1995 is \$958,790,487; However, after deleting a senior citizens discount of \$5,031,930 and the James River appeal, the estimated taxable value is \$753,758,557. The future assessment of the value of the James River Mill is a major question mark in the assessed value picture. How long it will take for the James River appeal to be resolved is also a speculative question.

The estimated yield from sales taxes for 1995 is \$1,000,000. This amount is based on trends and is an estimate. Sales tax revenues are difficult to predict, and related to numerous factors including the overall economy and the rate of local construction. The amount of construction and maintenance activity of the city's largest taxpayer, James River Corporation, can affect sales tax revenues. Over the past decade the city has received \$1,001,367 from deferred sales tax on the modernization project at James River's mill. Money from the deferred sales tax has been designated for major capital projects. \$150,000 of such funds were appropriated for fire apparatus. A second capital expenditure of these funds was \$140,000 used for purchase of park/green space primarily on Ostensen Canyon. The 1991 budget proposed a capital expenditure of \$186,000 for library automation from this sales tax "dividend". A contribution from the sales tax dividend of \$161,700 towards the Sixth Avenue Project was foreseen and budgeted in the 1994 budget. The funds were not used. This remaining portion of the mill modernization "dividend" is part of the city's General Fund reserve, along with a \$700,000 tax stabilization reserve.

The General Fund budget uses an estimated \$209,000 of beginning fund balance. The Street fund utilizes an estimated \$52,000 in carry-over funds in 1995. These balances are the result of projected appropriations not expended and revenues exceeding estimates over a period of time. Revenues in 1994 were substantially higher than budgeted, and this has benefited the carry-over.

Sales tax revenues and building related revenues have been especially strong in 1994. The November estimate is that General Fund reserves will have grown by more than \$400,000 in 1994. These strong revenues will help mitigate the 1995 effort of the James River appeal. Revenues from interest earnings, state shared revenues, grants, and fees are best estimates which benefit from past trends.

Estimated State Shared Revenues for 1995, compared with 1994 estimates and 1993 actual figures, are as follows:

	<u>ACTUAL</u> <u>1993</u>	<u>ESTIMATES</u> <u>1994</u>	<u>ESTIMATES</u> <u>1995</u>
PUD PRIVILEGE TAX	\$ 18,193	20,000	20,000
MOTOR VEHICLES EXCISE TAX	113,879	117,975	105,360
LIQUOR EXCISE TAX	23,801	25,055	22,140
LIQUOR BOARD PROFITS	47,566	50,540	44,655
MOBILE HOME/TRAILER EXCISE TAX	1,530	1,600	1,930
STREET FUEL TAX	108,535	117,325	116,575
ARTERIAL STREET FUEL TAX	50,739	54,800	54,462
OTHER STATE SHARED	<u>22,618</u>	<u>22,410</u>	<u>14,330</u>
<b>TOTAL</b>	<b><u>\$386,861</u></b>	<b><u>409,705</u></b>	<b><u>379,452</u></b>

The 1995 budget includes per-capita distributions from the state which are attributable to the 1990 gas tax increases passed by the legislature. State revenues partially funding the costs of compliance with the Growth Management Act, and for criminal justice purposes, are included in the 1995 budget. Funds from the Park and Open Space Impact fees are included in the budget, as are proceeds from the adopted 1/4 of one percent real estate excise tax. The Impact Fees are significant and reflected in the Growth Management Capital Projects fund.

#### PERSONNEL

There are a few minor personnel changes in the 1995 proposed budget. The accounting supervisor position is left vacant with Joan Smith's promotion to the Finance Director position, and the projected productivity impacts of the proposed computer project. The solid waste crew is increased to three full-time equivalent positions, reflecting several years increase in number of solid waste customers and the extension of solid waste service to the Prune Hill annexation areas. A one-half time billing clerical position is added in the emergency medical fund (converting the current half-time to a full-time position). The building inspector position which was added in 1994 is continued, as is the paramedic/firefighter position which was added in late 1994. These positions share a common emphasis - first line service positions. Looking beyond 1995, we anticipate that the 1996 budget will need to address staffing needs, such as additional police officer positions. These will continue as population increases to maintain current or similar service levels to a growing community.

The city has three year collective bargaining agreements which continue through December 31, 1994. Negotiations are underway and to date, there are no contract agreements. The budget does not predict the outcome of the negotiations. After settlements are completed, it may be necessary to reflect the settlements through a supplemental budget ordinance. The personnel budget reflects the expectation that there will likely be professional contract negotiation costs attributable to the 1995 budget year. A second personnel related matter is the compensation study of the unrepresented employees. This was initiated early in the year, and the Oregon Local Personnel Institute (LGPI) was selected to conduct and review this matter. The study is an extensive process, and the results will be under council review this winter. At this writing, it is premature to reflect any LGPI compensation study conclusions in the 1995 budget. This, like collective bargaining matters, is ongoing and incomplete, and therefore not included in the budget.

#### SECURITY OF PERSONS AND PROPERTY

Total estimated costs for security of persons and property compared with 1993 actual expenditures and the 1994 appropriations are as follows:

	ACTUAL 1993	ESTIMATED 1994	ESTIMATED 1995
LAW ENFORCEMENT AND DETENTION	\$1,137,181	1,252,471	1,236,104
FIRE CONTROL	723,179	777,379	803,452
PROTECTIVE INSPECTION	150,530	229,924	224,067
EMERGENCY MANAGEMENT	2,420	4,750	4,750
AMBULANCE	<u>610,915</u>	<u>778,795</u>	<u>735,467</u>
<b>TOTAL</b>	<u><b>\$2,624,225</b></u>	<u><b>3,043,319</b></u>	<u><b>2,986,840</b></u>

The 1995 proposal provides for steady public safety functions. A mid-year addition of a police officer is on the list of deferral, and needs to be re-considered when more information on revenue is available. The most important element of public safety budgeting in 1995 is the purchase of a police department site. Agreement has been reached with Mary Peery-Daniels the owner of a 1.75 acre site on SE Third Avenue. The agreement has a purchase price of \$152,000, and certain contingencies designed to assure that the site is acceptable to the city as a police facility. Funding for the purchase, and related site work is found in the Growth Management Capital Projects Fund, and totals \$20,000. The funds originated from the one-fourth of one percent real estate excise tax adopted by the city on 1992. Creation of a police facility which is adequate is a major project which has long been needed and which has great momentum. Additional activity and steps on this project are to be anticipated in the course of 1995.

In the Fire Department, integration and cross training of Paramedics and Firefighters continued in 1994. An additional Paramedic/Firefighter was hired late in the year. The volume of emergency medical calls continues at a very high level, estimated at about 2,000 calls in 1994. A half EMS billing clerical position is added in 1995's proposed budget. A highlight of

the Fire budget is the purchase of up-to-date SCBA equipment, which is programmed at \$18,000. It is anticipated that the department's SCBA equipment can be entirely updated in two phases, and finished in the 1996 budget year. In light of the James River appraisal value appeal, transfer from the General Fund to the Fire Equipment cumulative reserves is deferred (it had been initially planned at \$40,000 for 1995).

#### GENERAL

The budget makes provision for numerous functions which have a general or city-wide benefit. Included are functions such as Legislative, Judicial, Executive, Finance, Legal, Personnel, and a Budgetary category entitled "Other Governmental Services". Here is a brief summary of these: Legislative budget supports the costs of the City Council and is budgeted at \$39,100, essentially unchanged from 1994. The Judicial function has an appropriation of \$61,550, which is the same as 1994. This function includes a major intergovernmental services transfer for Camas' share of court costs. The Executive Department consists of costs related to the Mayor and City Administrator's functions and is budgeted at \$139,207, which reflects a \$2,280 increase from the 1994 budget. The Legal budget finances the City Attorney services and foresees a change from employee to clear contractor status for the City Attorney. The budget for this function is \$62,000. The Finance Department budget is changed in a noteworthy manner. The Accounting Supervisor position is expected to remain unfilled, and one-half of the Personnel Specialist position is transferred to the Personnel function. The Finance Department and other departments are expected to realize productivity gains through the installation of a new networked computer system. As one example, the system should allow for the automated "reading" and recording of utility bill payments. This has been a tedious, repetitive, and quite time-consuming process, which lends itself well to technically automated processes which will help our overall productivity. The Finance Department budget is \$343,050; the computer network is included in the General fund and Water/Sewer fund budgets with a total cost of \$84,100.

The personnel function includes funding for the wellness program, personnel consulting, labor contract negotiation costs, and one-half the cost of the personnel specialist. The function is budgeted for \$52,478. Other Governmental Services is a centralized department which bears costs such as supplies, audit, a major portion of insurance, and other similar costs. The function does not have capital costs this year, and thus is down from the 1994 figure. The 1995 cost for this function is \$103,200. Engineering is another major city function and a major portion of the Public Works Department. The products of the department benefit the utilities, streets, and other city facilities. The 1995 Engineering budget is stable at \$653,524. The staffing of the engineering function is stable and capital outlays include equipment such as a survey level and computer for Autocad. The department plans to acquire a Geographic Information System (GIS) computer capability, and anticipates that acquisition in a future budget. The most likely plan foresees this GIS capability as a 1997 addition with a current estimate of \$45,000 cost.

## PLANNING

Planning is, and has been an important function a major function, with critical tasks. Much has been done to meeting the challenges of growth and the requirements of the Growth Management Act. Major milestones in the planning area were achieved in 1991, and were reflected in the adoption of sensitive lands and related planning ordinances, in passage of the 30 percent open space set-aside rule, and in the adoption of park and open space impact fees. In 1993, school impact fees were adopted. Also, in 1994, capping a long and lively process, the Council adopted Urban Growth Boundary, and reviewed the Comprehensive Plan. The city's version of Urban Growth Boundaries will have Clark County review.

It is anticipated that there will be continued growth management/land use comprehensive plan work in 1995. Development ordinance and zoning code revisions will be required. Updates and revisions of the plan, our sensitive lands ordinances, and openspace/park impact fees are expected. Other planning work is expected to focus on development of a unified transportation/sensitive lands format, and updating the transportation plan and related impact fees. Most of this work will be done by contract consultants such as Bob Burke of McConnell and Burke. We expect to contract for county GIS mapping support and these costs are also included. The planning budget also contains annual fee contributions to groups such as Southwest Washington Association of Governments (SWAG); the Regional Transportation Commission (RTC); the Columbia River Economic Development Council (CREDC) for their important industrial recruitment work; to the Camas Downtown Association (CDA) for its work on promoting the downtown; and the sister city committee. The overall planning budget is slightly down from 1994 levels and is budgeted at \$94,100.

## BUILDING DEPARTMENT

The Building Department is ready for another very active year. The inspector added in 1994 is budgeted to remain in 1995. The overall level of building activity is high and will likely remain so. The rate of residential permits is illustrated in this chart:

<u>YEAR</u>	<u>RESIDENTIAL PERMITS</u> (Units, Including Multi-family)
1987	16
1988	37
1989	37
1990	75
1991	133
1992	86
1993	131
1994	231 (through October 31)

There has also been substantial commercial/industrial construction. In 1993-1994, the more significant commercial/industrial construction projects which the city inspected were the Underwriters Laboratories and Sharp projects. In 1995, the Furuno and Linear projects are anticipated, along with possible work at Sharp.

The building inspector added in 1994 is also budgeted for 1995. The initial building department budget included minor additional improvements to the remodeled house on the corner of NW 4th and Everett, which serves as the department's home. The projects totaling \$10,700 have been deferred in light of recent events.

#### PARKS AND RECREATION

The Parks and Recreation programs are funded at approximately the same levels as the prior year. The Parks budget foresees continued direct city operation of the existing swimming pool. The city resumed operations of the pool in 1992. The pool function is budgeted at \$77,900 for 1995, and includes funding for minor repairs and maintenance, including crack repairs in the main pool. A restroom upgrade, diving board relocation, waterslide, and window screens have been deferred, with a total cost savings of \$12,000. The General Parks section of the budget includes maintenance and operation of the series of city parks, and includes minor capital outlays. Some \$17,000 in projects such as field reconstruction and parking have been deferred. The Dorothy Fox Park, along with substantial green spaces, were added to the city's array in 1993, and maintenance needs of the parks will increase as acres are added. No staffing increases are proposed in parks, recreation or the Community Center this year. The General Parks Section of the budget is \$218,364.

A related recreational budget is the section titled "Participant Recreation", and this funds the summer recreation program at Crown Park. The city resumed operation of this program in 1993. The program has received substantial attention from the Parks Board and customers. Recreation staff are planning the 1995 program and intend to benefit from customer and Parks Board comments and direction. A better attended, better received summer program is anticipated.

The Community Center budget includes many program activities. The Community Center programming is very diverse and year-round. The budget detail lists activities and programs which the Community Center plans for 1995. Most activities generate activity revenues, which offset activity costs. The Community Center is budgeted at \$105,102 for 1995. This is an approximate \$15,000 increase, most of which is related to program activities which are expected to have offsetting revenues. Two Community Center capital needs are deferred, saving \$5,700. Several park and openspace acquisitions and developments are budgeted in the GMA Capital Project Fund. This has been an area of major community, Parks Commission, and City Council emphasis. The major capital improvements and acquisitions are consistent with the approved Capital Facilities Plan which was adopted by Council September 26, 1994. They are also consistent with the updated parks and open space network plan adopted by Council in June, 1994. Acquisition of land for a neighborhood park in the Brady/16th area ("McIntosh Neighborhood Park") and for acquisition of land for a major Park with playing fields in the N.W. 38th Avenue area ("Grass Valley Park") are both budgeted with Impact fee funds. Development of the SE 8th Street park in Oak Park is anticipated with an estimated cost of \$115,000. The intention is to build this small neighborhood park in 1995.

Continued green space acquisitions in Ostensen Canyon/Prune Hill and other portions of the recognized permanent open space network are anticipated in 1995, and budgeted at \$500,000. We anticipate that the Washougal River Greenway Phase II project - construction trails and river overlook sites on the north bank of the Washougal - will be constructed in 1995. This phase of the project is expected to benefit from Interagency Committee for Outdoor Recreation (IAC) grant funding of approximately \$45,000.

#### CAPITAL EXPENDITURES

There is a major capitalized expenditure, the network computer. The cost of this is shared between the General Fund and the Water/Sewer Fund. Both funds will benefit. The capitalized expenditure is a city-wide computer network system. The network computer is to replace a now obsolete NCR 10,000 mini computer in the Finance Department. The NCR operates with a dated ITX operating system which is difficult and expensive to maintain. The replacement not only is to serve Finance Department needs, but wider city needs. The new system is a network. It should allow for further automation of a number of repetitive tasks and this should help with productivity of our workforce. Examples of areas which lend themselves to further records automation include utility billing/receiving, and payroll records. The computer network is budgeted at \$86,500, of which \$54,100 is from the General Fund, and \$32,400 is from the Water/Sewer Fund. Some Fire Department, Public Works Operations Center, Police, and Library portions of the network are deferred. These elements can be added to make the network more comprehensive.

Other major Capital expenditures slated for 1995 include the following (along with a listing of the budget or budget category for the item):

-Fisher Basin Waterline Intertie - This is budgeted at \$600,000, and is an 18 inch waterline connecting the city water system from the area of NW Sierra Street and the intersection of NW Parker and Pacific Rim Boulevard. This project is expected to benefit from a CERB approved, favored rate loan. The water construction Fund is a new fund.

-Park and Open space Acquisitions and Developments Funds - Described in the parks section and budgeted in the Growth Management Capital Projects Fund.

-Police Facility Site - acquired with funding through the GMA Projects Fund; budgeted at \$220,000, includes purchase of the 1.75 acre site and initial site work.

-Street Improvements - Camas Entrance - S.W. 6th Avenue improvements (\$65,000); and an overlay of part of N.W. Lake Road (\$94,200) are in the Street budget. These are largely funded with grant monies. A traffic signal (\$100,000) and chip seal program (\$30,000) which depend on General Fund revenues, are deferred.

-The Mitchell Street Sewer Project - extending sanitary sewer to the west end of Tidland Heights is funded with CDBG dollars, slated for construction in 1995 and budgeted in a separate construction fund.

-Garbage Truck - purchase of a 20 cubic yard garbage packer truck is scheduled, estimated at \$108,000, and carried in the Equipment Rental fund.

#### CITY STREETS

The 1994 year was marked by some street projects of note: the overlay of a major portion of the NW Sixth Avenue entrance to the community; construction of a bike path on Lake Road; extensive sidewalk improvements; city payment of the Third Loop project; and new developments, including Parker Boulevard. Adoption of Transportation Impact Fees was a signal accomplishment of 1994, which will benefit the streets of the future.

The City has been accomplishing major street and neighborhood projects in the past few years. They have included:

- Reconstruction of SW Sixth Street (1990)
- Oak Park Street and Neighborhood Project (1991)
- Construction of Pacific Rim Boulevard (1991)
- One Stop Neighborhood Project (1992)
- McIntosh and Brady Street Project (1992)
- Downtown Neighborhood Project (1993)
- Forest Home Road Improvements (1993)
- Parker Boulevard (1994)

These have been projects of a large scale, and several have benefited from outside grant and loan sources of funding. The projects have also made demands on the Street and General fund reserves. The Street fund and street needs will continue to make major demands on the City's resources and resourcefulness.

#### LIBRARY

The Library budget continues a level of quality library service for the community, including a significant book acquisition policy. Funding continues in the General Fund, reflecting an accounting change made in 1993. Staffing is stable, and the funding for the library is close to the 1994 level. The computerization of the library, linking it to the very extensive collection of the Fort Vancouver system is continued, and is functioning well. The disabled access improvements to the building were accomplished in 1994. Sidewalk repairs on the east side of the building are the minor project for 1995. The Library Director position is expected to be filled in early 1995.

The Library deferrals include its portion of the computer network and capital items totaling \$10,050.

### EMERGENCY MEDICAL SERVICES

The total Emergency Medical Services budget is decreased, from \$778,795 to \$753,467. This reflects the fact that the 1994 budget provided for purchase of a new ambulance, and the 1995 budget does not. Major highlights of the year past include the passage of a renewed five year levy in the district by an approximately 80 percent "YES" vote and high levels of EMS calls, billings, and revenues. The 1995 budget continues the staffing pattern from the level of 1994, and adds a one-half time clerical position. The one-half FTE converts the current part-time clerical position to a full-time position; the need for the position related to the levels of calls, billings, and collections. The budget includes sharply higher communication costs from the dispatch center (Clark Regional Communications Agency-CRCA).

The volume of EMS calls in the east county area continues to increase. From a 1990 level of 1,308 calls for service, to a 1994 estimated number of 2,000 calls, the activity level is clearly increasing rapidly. This is a change of approximately 53 percent in a four year period. EMS is an enterprise fund, much like a utility; and its revenues have also been rising. Current data and projections indicate the fund can sustain its operations, costs, and periodic capital costs such as a new ambulance.

### GENERAL LONG TERM DEBT

General Long Term Debt included in the 1995 budget:

Unlimited General Obligation Bonds	<u>\$126,168</u>
Limited General Obligation Bonds	<u>\$125,614</u>

Debt service on the Unlimited General Obligation Bonds is related to the 1989 Park/Open Space Bonds. The tax rate related to repayment of these bonds has declined as the community's assessed value grew. The Limited General Obligation Bonds debt service relates to repayment of bonds issued for the storm sewer construction on Adams Street (1989) and the construction of Pacific Rim Boulevard (1991).

### SANITARY/SOLID WASTE

The total budget is \$696,263. This includes residential and commercial service. Solid waste collection, recycling, and yard waste are in this budget. The 1993 and 1994 budgets contrast with prior years in that the large drop box services to contractors and the James River Corporation are not included in the City budget. These drop box services are still operated under a contract administered by the City, but the revenues and the expenses do not pass through the city budget. Careful design of the contract specifications for solid waste container service has assured the necessary standards for this service.

The Sanitary/Solid Waste fund's revenues reflect the rate changes adopted by Council in 1992. The 1992 Council action set rates for 1993, 1994, and 1995. The rate increases were based on an extensive cost-of-service analysis, and

accommodated the very large increases in "tipping fees" for solid waste disposal. The overall tonnage rate for transfer, transport and end-disposal at Finley Buttes in Central Oregon rose from a rate of \$48.25 to a rate of \$69.34 in March of 1992. Subsequent increases in tipping fees are more moderate and closely follow changes in the Portland area Consumer Price Index (CPI). These terms of a contract between the city and county, which was finalized in 1992, should serve Camas for an extended time.

Generally, those garbage costs over which the City has some control or influence, i.e. staffing, wages, billing costs, operation, and maintenance of equipment, etc., have been rather stable. The Sanitary Fund appears in good, stable condition.

Recycling program revenues and expenses are included in the Sanitary Fund. The monthly per unit charge for recycling is currently \$2.20. Recycling has been restraining the growth of landfill volumes, and continues to divert in the upwards of 30 tons of materials per month. The recycling program is required by Washington law, and since the end disposal site of Camas solid waste is in Oregon, Oregon regulations requiring residential recycling also apply. The yard waste program was initiated in 1994 and is included in the budget. It currently has 273 customers, and is diverting yard waste.

The 1995 budget increases the staffing of the Solid Waste function by a portion of a full-time-equivalent (FTE). The crew becomes three sanitary workers. For several years, more and more homes have been added to the garbage routes. Compounding this situation is the scheduled transition of garbage service for the 1990 Prune Hill annexation area. This, plus continuing rapid residential growth, drive this sanitary worker addition. The equipment rental fund carries the costs of a replacement garbage packer truck. Council has indicated interest in an examination of the city's options for providing garbage service city-wide. Any purchase of a truck will be deferred until that review is completed.

#### WATER AND SEWER

The Water/Sewer Revenue fund contains a total appropriation of \$2,122,503, compared with a 1994 appropriation of \$2,367,135. The budget includes \$369,541 in debt service for 1995 which compares with \$390,073 for 1994. The debt service relates to the Prune Hill Reservoir and other past large construction projects. The Capital portion of the 1995 water/sewer budget is \$142,000.

Recent events which affect the Water/Sewer Fund include the water and sewer system facilities studies, which were conducted by the firm CH2M Hill, and completed in 1993 and 1994, respectively. The studies were reviewed by Council and adopted. Also in 1994, the CH2M Hill firm conducted a periodic review of the city's water and sewer rates. The upshot of the review was Council adoption of revised rates for 1995, 1996, and 1997. The rates reflected the consultant study recommendations, and increased sewer rates by 3.5 percent for each of the three years. At the same time, water rates were increased 3 percent annually for the three years. The system's finances appear sound, and the necessary debt service ratios are being achieved.

Over the past several years there have been several large water/sewer projects, which are now completed:

Victoria Hills Sewer Project	1993
Tidland Heights Sewer Project, Phase II	1993
Sewer Facilities Study	1993
Lacamas Heights Sewer Project	1992
Lower Prune Hill Reservoir Construction	1992
Tidland Heights Sewer Project, Phase I	1991
Fisher Basin Sewer Line	1991
Sewer Transmission Line	1990

Major projects which relate to the water and sewer systems are presented in separate construction budgets, but are noteworthy. The Grass Valley Waterline Intertie (\$600,000) and the Mitchell Street Sewer Project (\$205,977) are slated for construction next year. Both serve important city goals. The intertie will more fully serve the Light Industrial area and promote economic diversification. The Mitchell Street sewer project will be another step in eliminating septic sewage disposal in the city and replacing it with standard municipal service.

#### EQUIPMENT RENTAL

The Equipment Rental fund is budgeted at \$512,251, and includes \$152,500 for equipment acquisitions. A garbage truck for \$108,000, a mower cushman, paint striper, and minivan are on the acquisition. The garbage truck is the major item.

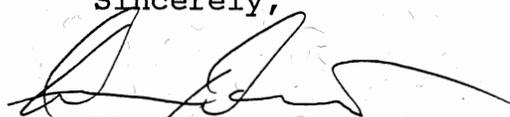

#### UNCERTAINTIES

There are uncertainties as 1995 approaches. The usual questions about the economy, and the course of the residential development, are compounded by the unfolding James River Mill story. At this writing, James River has announced substantial lay-offs and has indicated that the mill is for sale. The assessor's office has advised that James River's appeal of \$200,000,000 in assessed value will exclude that values property tax amount from the 1995 budget, pending a decision on the appeal. Through a combination of higher than expected other revenues, use of some tax stabilization reserves, and a series of approximately \$300,000 in project deferrals, the initial impact of this has been addressed.

#### GENERAL

The 1995 budget is quite conservative. This is evident in the General Fund "bottom line" which is reduced from prior levels. It is reflected in the overall budget totals which are also reduced from prior levels. The intent of this budget is to continue a tradition of quality public service in the face of challenging circumstances.

Sincerely,

Dean Dossett  
Mayor

ORDINANCE NO. 2011

**AN ORDINANCE** adopting the budget for the City of Camas, Washington, for the fiscal year ending December 31, 1995.

**WHEREAS**, the Mayor of the City of Camas, Washington completed and placed on file with the City Clerk a proposed budget and estimate of the amount of the monies required to meet the public expenses, bond retirement and interest, reserve funds and expenses of government of said City for the fiscal year ending December 31, 1995, and a Notice was published that the Council of said City would meet on the 28th day of November, 1994 at the hour of 7:00 p.m., at the Council Chambers in the City Hall of said City for the purpose of making and adopting a budget for said fiscal year and giving taxpayers within the limits of said City an opportunity to be heard upon said budget; and

**WHEREAS**, the said City Council did meet at said time and place and did then consider the matter of said proposed budget; and

**WHEREAS**, the said proposed budget does not exceed the lawful limit of taxation allowed by law to be levied on the property within the City of Camas for the purposes set forth in said budget, and the estimated expenditures set forth in said budget being all necessary to carry on the government of said City for said year and being sufficient to meet the various needs of said City during said period.

**NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF CAMAS DO ORDAIN AS FOLLOWS:**

**SECTION I**

The required appropriation and expenditures for the various funds and departments and needs for the operation of government of the City of Camas, for the fiscal year ending December 31, 1995, as set forth in said budget and which is hereby adopted, are fixed in the

following amounts, to wit,

FUND	DEPARTMENT	AMOUNT	AMOUNT
General	Legislative	\$ 39,100	
	Judicial	61,550	
	Executive	139,207	
	Financial & Record Service	343,050	
	Legal	62,000	
	Personnel	49,137	
	Central Services	86,250	
	Other General Governmental Services	103,200	
	Law Enforcement	1,233,854	
	Fire Control	785,952	
	Detention and/or Correction	2,250	
	Protective Inspections	224,067	
	Emergency Management	4,750	
	Pollution Control	1,850	
	Engineering	650,024	
	Other Physical Environment	46,200	
	Information and Outreach	5,000	
	Planning and Economic Development	94,100	
	Public Health	59,461	
	Community Education	7,700	
	Libraries	486,262	
	Participant Recreation	10,150	
	Cultural and Recreational Facilities	105,102	
	Park Facilities	296,264	
	Capitalized Expenditures	54,100	
	Other Financing Uses-Interfund	<u>420,213</u>	
	Total General Fund		<u>\$5,370,793</u>

FUND	DEPARTMENT	AMOUNT	AMOUNT
City Street			766,600

Equipment Rental			430,251
Firemen's Pension			<u>17,000</u>
TOTAL ALL FUNDS			<u>\$ 12,897,813</u>

**SECTION II**

That certain document entitled "Proposed Budget and Program of Service" for the year beginning January 1, 1995, three (3) copies of which are on file in the office of the Clerk, be and the same is hereby adopted as the budget for the City of Camas for the fiscal year ending December 31, 1995.

**SECTION III**

This ordinance shall be in force and take effect five (5) days after its publication according to law.

**PASSED** by the Council and **APPROVED** by the Mayor this 28th day of November, 1994.

**FUNCTION**

The General Fund accounts for all revenues and expenditures of the city of a general nature that are not required to be reported in a special type of fund. It receives a much greater variety of revenues and is utilized for a greater variety of expenditures than other funds.

**ACTIVITIES AND SERVICE**

Expenditures for legislative, judicial, executive, financial and administrative, legal, personnel, planning, general governmental services, engineering, parks and recreations, pollution control, nuisance control, animal control, health, community education and library are included in the General Fund. Police and fire services are also included in this fund. The General Fund is reimbursed for applicable engineering, accounting, and legal services it provides for the water-sewer, sanitary and equipment rental functions.

**FUNCTION**

The council is the elected legislative governing body of the City of Camas.

**ACTIVITIES AND SERVICES**

The council determines policy as it relates to all city functions and activities, enacts ordinances and resolutions, and confirms or rejects certain appointments of the Mayor. The council meets at two regular meetings per month, two workshops per month and also attends numerous committee and other governmental board meetings during the year. Publication costs of city ordinances, resolutions and bid advertisements are included in this section of the budget.

**COMMENTS ON BUDGET APPROPRIATIONS**

Election costs previously included in the Finance budget are now included in the Legislative budget as required by the State Auditors accounting manual.

#### FUNCTION

The Police Judge is the chief judicial officer of the city. He is also one of the elected District Court Judges of Clark County.

#### ACTIVITIES AND SERVICES

The Police Judge hears all cases and has exclusive jurisdiction over offenses defined by ordinances of the city. He has full power and authority to determine all cases, civil or criminal, arising under such ordinances and may pronounce judgment on these cases. The city provided for a violations bureau in 1982 to operate under the supervision of the municipal court.

#### COMMENTS ON BUDGET APPROPRIATIONS

The 1995 budget is the same as 1994, but it is anticipated there will be an increase in the reimbursement to Clark County for a portion of the District Court judge and court clerk services.

#### FUNCTION

The Mayor is the chief elected official of the City of Camas. The Mayor appoints the Chief Administrative Officer under the mayor – council form of government.

#### ACTIVITIES AND SERVICES

The Mayor is responsible for directing and coordinating the activities of the city departments through the City Administrator. The Administrator carries out the policies of the council and directs the day to day activities of the operating departments of the city. The administrator submits the proposed budget to the city council with recommendations for the ensuing year. Duties of the Mayor also consist of the political and community leadership of the city. The Mayor is responsible for the appointment and removal of nonelective city officials. The Mayor presides at all council meetings but does not have a vote except in the case of a tie.

#### COMMENTS ON BUDGET APPROPRIATIONS

The 1995 budget includes normal salary and benefit increases for the City Administrator and Administrative Secretary.

514 000	Total Financial and Records Services	<u>\$409,721</u>
	% Increase (Decrease) Prior Year	4.61%
		-19.96%

#### FUNCTION

The financial and records function of the city provides for furnishing financial, accounting and other related administrative services to the city. The department performs the duties of the City Clerk's office as well as many personnel and risk management functions.

#### ACTIVITIES AND SERVICES

Activities of the Finance Department include all of those of the City Clerk's office such as licensing, voter registration, council and city records. All utility billing, personnel records, purchasing and general city accounting are done by the department. Operation of centralized city printing and mailing are other activities of the finance department as well as budget preparation, control, financial reporting and other related administrative services.

#### COMMENTS ON BUDGET APPROPRIATIONS

The Finance Department mainframe needs to be replaced (as well as several other departments' systems), therefore, a city-wide network system has been planned which would consolidate information processing throughout most of the city. Most of the departments will communicate and share information, hardware and software via the system. The Accounting Supervisor is not budgeted for 1995, however, a Finance Network Analyst position is planned to set up and administer the city-wide network. The Finance Assistant I position will be vacated and not replaced at this time. It is likely a Finance Assistant II will be promoted to the Finance Network Analyst position, and the existing Finance Assistant I will fill the opening as a Finance Assistant II. One half of the Personnel Specialist position is now included in the Personnel Department.

#### FUNCTION

The personnel function provides for general expenses of a personnel nature that cannot be included in any other specific budget.

#### ACTIVITIES AND SERVICES

Expenses for personnel surveys, pension and social security, labor relations consultants and other expenses that cannot be assigned to a specific department are included in this budget section. The city's wellness program is also included.

#### COMMENTS ON BUDGET APPROPRIATIONS

In 1995 one half of the personnel specialist position is included here in the Personnel Department, the other half is budgeted in the Finance Department. Prior to 1995, all of it was budgeted in the Finance Department.

**FUNCTION**

The central services function is a classification for general building services as prescribed in the state auditor's *Budgeting, Accounting, and Reporting System* (BARS), effective January 1, 1995. This budget includes the costs of providing housing facilities for general government, public safety and public works engineering.

**ACTIVITIES AND SERVICES**

Expenses under this budget include the maintenance and operation of the municipal building.

**COMMENTS ON BUDGET APPROPRIATIONS**

The 1995 budget contains funds for electrical upgrades in the Fire Department and a fire alarm system.

**FUNCTION**

The other general governmental services section of the budget provides for all expenses of general operations of the city not provided under a specific fund and department.

**ACTIVITIES AND SERVICES**

Other general government includes miscellaneous government expenses such as duplication, printing, general liability insurance, dues to the Association of Washington Cities and State Auditor's Office audit fees.

**COMMENTS ON BUDGET APPROPRIATIONS**

Washington Cities Insurance Authority assessment for the city's liability insurance is \$109,657, a decrease of \$4,400 from 1994. \$31,000 for general liability is included here, the remainder is charged to other departments for their pro-rata share of liability.

#### FUNCTION

The Police Department provides protection to persons and property within the City of Camas.

#### ACTIVITIES AND SERVICES

The activities of the Police Department include enforcing traffic regulations, investigating accidents and criminal offenses and preventing crime. Other activities include recovering stolen property, clearing fraudulent check cases, suppressing juvenile delinquency and parking enforcement.

#### COMMENTS ON BUDGET APPROPRIATIONS

The 1995 budget includes a new position that was created in the fall of 1994, Parking Enforcement/Clerk. This position does parking enforcement half-time and clerical duties the other half.

**FUNCTION**

The fire control function provides fire protection services to persons and property within the city of Camas.

**ACTIVITIES AND SERVICES**

Activities of the department include fire inspection, prevention education and extinguishing of fires. Firefighters and Firefighter/Paramedics operate the ambulance and emergency aid activities although these expenses are paid from the Emergency Rescue Fund.

**COMMENTS ON BUDGET APPROPRIATIONS**

The Fire Department will maintain the same staff level as 1994. The budget includes replacement of half of the 20 year old SCBA units. The other half is planned for replacement in 1996.

**Annual Budget**

	% Increase (Decrease) Prior Year		114.12%	-16.67%

#### FUNCTION

The detention and/or correction budget provides for cost of care of prisoners and parole services.

#### ACTIVITIES AND SERVICES

Prisoners are detained either in the city jail temporarily or are held in the county jail. The city reimburses the county for board of prisoners.

#### COMMENTS ON BUDGET APPROPRIATIONS

The amount appropriated for 1995 is reduced from the budgeted amount in 1994. Historically the costs for this activity are much less than has been budgeted.

	% Increase (Decrease) Prior Year		52.74%	-2.55%

**FUNCTION**

Protective inspections provide for inspections and enforcement of regulations relevant to the issuance of building permits and other permits not assigned to a specific department.

**ACTIVITIES AND SERVICES**

The activity accounts for payments for professional services for inspections and for related facilities.

**COMMENTS ON BUDGET APPROPRIATIONS**

Funds are budgeted under professional services for plan and structural services review for possible new industrial construction.

Since a new building inspector was hired in 1994, other salaries and wages of \$10,000 budgeted in 1994 is not needed for 1995.

	% Increase (Decrease) Prior Year		96.28%	0.00%	

**FUNCTION**

Emergency management provides for safety, food, aid and housing to citizens during time of disaster.

**ACTIVITIES AND SERVICES**

The emergency management budget provides for an intergovernmental payment to the county emergency services operation and for maintenance of the municipal building emergency generator.

**COMMENTS ON BUDGET APPROPRIATIONS**

The 1995 budget is unchanged from the 1994 budget. Historically actual expenditures are usually about half of the budgeted amount.

525	EMERGENCY MANAGEMENT	Actual Approp 1994	Estimated Required 1995

	% Increase (Decrease) Prior Year		2.86%	2.78%

#### FUNCTION

The pollution control budget provides for the city's share of the Southwest Air Pollution Control Authority's activities and other natural resources expenses.

#### ACTIVITIES

The pollution control authority sets standards for control of air pollution within the region and enforces these standards.

#### COMMENTS ON BUDGET APPROPRIATIONS

The amount budgeted for 1995 is the city's estimate of the pro-rata share of the operating costs of the Southwest Air Pollution Control Authority.

	% Increase (Decrease) Prior Year		8.43%	-0.18%

#### FUNCTION

The Engineering Department furnishes general administration and supervision including planning and developing of capital improvement programs of city public works operations.

#### ACTIVITIES AND SERVICES

The Engineering Department designs and supervises capital improvement programs for the city. It is responsible for engineering, inspection and supervision of the Streets, Water-Sewer, Parks maintenance, Equipment Rental and Sanitary Departments. Engineering programs include design, plans and specifications for all construction projects in the city not contracted with consulting engineering firms. Supervision of sanitary collection activities also falls within the jurisdiction of this department.

#### COMMENTS ON BUDGET APPROPRIATIONS

The personnel schedule reflects no changes from 1994 except normal salary and benefit increases for the staff. There are funds budgeted for a new autocad workstation and new survey equipment.

**Annual Budget

	% Increase (Decrease) Prior Year		-0.63%	10.29%

**FUNCTION**

The Other Physical Environment function provides for animal control expenses.

**ACTIVITIES AND SERVICES**

The City of Camas maintains the animal control facility and pays a prorated share of the animal control operation to the City of Washougal.

**COMMENTS ON BUDGET APPROPRIATIONS**

The 1995 budget reflects a change in our interlocal agreement with the City of Washougal. Starting January 1, 1995 there will be one additional animal control officer for a total of two officers. Both cities will pay 50% of the operating costs, except the City of Camas will maintain the existing animal control facility and the City of Washougal will maintain the vehicles. Fuel costs for the vehicles will be shared equally.

	% Increase (Decrease) Prior Year		12.18%	-1.72%

#### FUNCTION

The planning activity provides for the adoption and recommendation of coordinated plans for the overall comprehensive physical planning and development of the city.

#### ACTIVITIES AND SERVICES

The Planning Commission conducts hearings and makes recommendations as to zoning of property and recommends regulations and restrictions on the location of buildings, structures and land for residential, trade, industrial and other purposes. The commission also enters into agreements for planning and zoning assistance from private consultants and other governmental planning organizations.

#### COMMENTS ON BUDGET APPROPRIATIONS

Funds are appropriated for outside professional services for revising and updating zoning codes, ordinances dealing with developments, transportation and sensitive lands. Other professional services budgeted under economic development are:

Columbia River Economic Development Council	\$11,000
Camas Downtown Association	7,500
Sister City Program	2,500

	% Increase (Decrease) Prior Year		7.92%	6.94%

#### FUNCTION

The health budget provides for the city's payment to the Southwest Washington Health District for services and for payments to the county for alcoholism programs.

#### ACTIVITIES AND SERVICES

The Health Department provides food inspection services to the city, inspection of various unsanitary situations detrimental to the community's health and provides vaccination and certain medical services to the citizens of the city and the school district. The county alcoholism program provides for alcoholic rehabilitation services to the citizens of the city and county.

#### COMMENTS ON BUDGET APPROPRIATIONS

The city's proportionate share of the Southwest Washington Health District is increased 7% to \$57,361 for 1995. The city pays 2% of its share of state liquor profits and taxes to the county for the city's share of the county alcoholism program.

	% Increase (Decrease) Prior Year		2.78%	108.11%

#### FUNCTION

The community education program is conducted by the school district and provides varied educational training programs to the citizens.

#### ACTIVITIES AND SERVICES

Community education programs conducted by the school include operating the senior citizen center. Until 1993 the program also conducted certain park and recreation programs. These programs are now operated by the city park and recreation staff.

#### COMMENTS ON BUDGET APPROPRIATIONS

Funds budgeted for the community education program by the Camas School District are at the same level as 1994. Additional monies are budgeted in 1995 for training and operating expenses.

	% Increase (Decrease) Prior Year		9.65%	-0.24%

#### FUNCTION

The library furnishes services to the residents of the city, the school district and other outlying areas.

#### ACTIVITIES AND SERVICES

The Camas Public Library provides information, education, recreation, and cultural materials and services. The budget also provides for the maintenance of the library building and the renting of the building for certain activities such as the district court, the Camas–Washougal Historical Society Museum, and the friends of the Camas Public Art Gallery.

#### COMMENTS ON BUDGET APPROPRIATIONS

The Library will have a few changes in 1995. It will start the year with a new Library Director, install new office furniture and has future plans to connect to the city–wide computer network. The Library has plans to install six new office panel furniture units to improve the crowded workrooms and increase work efficiency. Library books and other materials are budgeted for \$67,800, down from \$72,600 in 1994.

**FUNCTION**

Participant Recreation provides primarily for the summer park recreation program previously conducted by the staff of the community school program. City park staff will conduct most of these programs in the future.

**ACTIVITIES AND SERVICES**

The program will conduct certain park and recreation activities in the summer in addition to specialized training classes.

**COMMENTS ON BUDGET APPROPRIATIONS**

The 1995 appropriations includes salaries and benefits for seasonal summer recreation help for the Summer Camp Program.

**FUNCTION**

The Culture and Recreation Facilities function provides for the operation and maintenance of the community center facility acquired by the city in the Oak Park area.

**ACTIVITIES AND SERVICES**

The community center is utilized for community activities such as plays, senior citizen events and other community activities including youth and the establishment of a neighborhood center.

**COMMENTS ON BUDGET APPROPRIATIONS**

The Community Center has budgeted a summer intern position and an increase in professional services to coordinate additional recreation events.

	% Increase (Decrease) prior year		20.24%	-7.61%

**FUNCTION**

The Parks and Recreation function provides for the operation of general recreation facilities for the residents of the city and surrounding area.

**ACTIVITIES AND SERVICES**

The city maintains and operates playgrounds and parks, swimming and wading pools, lighted baseball parks, little league parks, picnic grounds and tennis courts. Baseball and little league programs are provided for all residents including Washougal and the county area.

**COMMENTS ON BUDGET APPROPRIATIONS**

One half of the Parks and Recreation Supervisor salary is included in this budget and the other half in the Community Center budget. In 1995 the Parks Department has plans to add additional playground equipment with fibar fall protection to most city parks.

594 000	Total Capitalized Expenditures	<u>--</u>	<u>\$54,100</u>	<u>\$54,100</u>
	% Increase (Decrease) over prior year			0.00%

**FUNCTION**

Capitalized expenditures is a classification under the "BARS" system utilized to sort out and identify major capital expenditures from ordinary operations and maintenance of departments. Minor capital outlay items are included under the department budget.

**COMMENTS ON BUDGET APPROPRIATIONS**

The 1995 appropriation is for a new city-wide computer network system for sharing data, software and hardware. The network will run on a current operating system and will manage all the financial applications and utility customer functions in the Finance Department, as well as serve the Police Dept., Public Works Dept., Building Dept., Administration and Fire Dept. There are future plans to serve the Library, the new Operations Center and the rest of the Police Department and Fire Department. One new software application on the network will be a report writer for flexible and custom reports. \$54,100 is budgeted here for all general governmental functions and another \$32,400 is budgeted in the Water-Sewer Department.

	% Increase (Decrease) over prior year		15.19%    -31.23%

**FUNCTION**

The street budget provides for maintenance and minor construction of all city streets within the city limits.

**ACTIVITIES AND SERVICES**

Maintaining, seal coating, patching and grading of streets, providing lighting of roads and intersections, providing snow and ice control, sweeping of streets and maintaining or operating traffic signals are activities and services provided from the street budget activity.

**COMMENTS ON BUDGET APPROPRIATIONS**

Road and Street Maintenance appropriations are decreased from 1994, but paving of some of the remaining gravel streets will be done. Construction projects are decreased from prior years also. One project planned is to overlay NW Lake Road from SR 500 to NW Sierra for \$85,000. A \$65,000 project to beautify the entrance into Camas is budgeted, with approximately \$50,000 of the project funded by a Federal

	% Increase (Decrease) over prior year		27.48%	-5.56%

**FUNCTION**

The Ambulance, Rescue and Emergency Aid function provides ambulance, rescue and paramedic service to all persons in the cities of Camas and Washougal and Fire Districts No. 1 and 9.

**ACTIVITIES AND SERVICES**

The Fire Department operates and performs ambulance, rescue and emergency aid services to persons both inside and outside the city limits.

**COMMENTS ON BUDGET APPROPRIATIONS**

Renewal of the six year operating levy starting in 1995 was passed by the voters in the fall of 1994. There are two changes in the personnel schedule for 1995. A half-time clerk typist is budgeted for full time to keep up with the demand in billing and collections of ambulance calls. An additional firefighter/paramedic budgeted for six months in 1994, but hired in November, will be full time in 1995. There are no significant capitalized expenditures planned for 1995 as a new ambulance was purchased in 1994.

PROGRAM: Capitalized Expenditures		Actual Expend 1993	Actual Approp 1994	Estimated Required 1995
522 200 64	Fire Control	--	\$20,000	--
	Total Fire Equip Cumulative Reserve Fund	<u>--</u>	<u>\$20,000</u>	<u>--</u>

**FUNCTION**

The Fire Equipment Cumulative Reserve is a reserve fund where funds are accumulated for the purchase and replacement of the city's fire apparatus and equipment.

**COMMENTS ON BUDGET APPROPRIATIONS**

The 1995 budget has no funds budgeted to set aside this year to accumulate for the replacement of fire apparatus when it becomes obsolete or for the purchase of new equipment. The Fire Department has plans to purchase a ladder truck in 1998 for approximately \$405,000.

	Total Storm Water Drainage Fund	<u>\$6,142</u>	<u>\$93,000</u>	<u>\$40,000</u>

**FUNCTION**

The storm water drainage function provides for construction of storm sewer facilities primarily in the Fisher Basin drainage area in west Camas.

**COMMENTS ON BUDGET APPROPRIATIONS**

The 1995 appropriation provides for Phase 2 of the Fisher Basin stormwater and wetlands master plan. Phase 2 is intended to provide regulations on developments, determine infrastructure needed and possibly revise the stormwater utility fee.

Total Growth Management Capital Project Fund		<u>\$40,000</u>	<u>\$324,500</u>	<u>\$1,673,177</u>

**FUNCTION**

This fund accounts for expenditures that will be funded from proceeds of the local real estate excise tax collected by the county from sales of real estate within the city. The proceeds of the parks and open space impact fees are also deposited in this fund to be expended for purposes for which the tax was collected. School impact fees are collected by the city and immediately remitted to the county for credit to the school district. When the city imposes transportation impact fees and fire facility impact fees they will also be accounted for within this fund. Other funds for open space or related projects received from other governmental agencies will be deposited and accounted for in the fund.

**COMMENTS ON BUDGET APPROPRIATIONS**

Acquisition of land for two parks McIntosh Neighborhood Park and Grass Valley Park	\$700,000 ✓
Development of SE 8th Street Park <i>OAK PARK</i>	115,000 ✓

	Total 1989 Park Acquisition Capital Project Fund	<u>\$572,833</u>	<u>\$23,900</u>	<u>--</u>

**FUNCTION**

The 1989 Park Acquisition Capital Project Fund accounts for the proceeds of a voted general obligation bond issue to be utilized for park land acquisition and improvements.

**COMMENTS ON BUDGET APPROPRIATIONS**

The balance of the bond proceeds and interest earnings were expended in 1994 for park and greenspace acquisition, therefore this fund is no longer needed.

501		Road and Street Construction			
595					
501	380	Water – Sewer	\$ 0	\$280,000	\$ 0
595	000	Road and Street Construction	0	3,083,100	0
Total Sixth Avenue Capital Project Fund			<u>\$ 0</u>	<u>\$3,363,100</u>	<u>\$ 0</u>

**FUNCTION**

The Sixth Avenue Capital Project Fund was to account for the proceeds of loans, grants, contributions and transfers utilized for reconstruction of a portion of Sixth Avenue north of its present location. This project was to facilitate construction of co-generation structures and other facilities to serve the James River Corporation paper manufacturing plant in Camas. The relocation of this major arterial into the city from the west would also improve traffic flow substantially.

**COMMENTS ON BUDGET APPROPRIATIONS**

James River has cancelled plans for a co-generation facility, so reconstruction of Sixth Avenue is not necessary.

City Sanitary 422	Garbage and Solid Waste Utility 00	537 000		
		Actual Expend 1993	Actual Approp 1994	Estimated Required 1995
<b>PROGRAM: Refuse Collection</b>				
537 000	00			
	Garbage and Solid Waste Utility	<u>\$701,268</u>	<u>\$687,172</u>	<u>\$696,263</u>
	Total Garbage and Solid Waste Utility	<u>\$701,268</u>	<u>\$687,172</u>	<u>\$696,263</u>

#### FUNCTION

The solid waste management function provides for the collection and disposal of refuse from businesses and residences within the City of Camas. This function also includes the revenues and expenses of the city recycling program.

#### ACTIVITIES AND SERVICES

Daily and/or weekly general rubbish collection and disposal activities are provided for in this budget. Payments to a private contractor for large dump box services are included in the sanitary budget for years through 1992. Beginning in 1993 the city contracted out large drop box services based on competitive proposals received from private contractors. The contractor does all billing and handles all request for large drop box services. The city will continue to serve residential and commercial customers and provide drop box service up to two yards. The city will continue to bill for recycling services and pay a private contractor for this service.

#### COMMENTS ON BUDGET APPROPRIATIONS

The 1995 budget includes funds for one additional sanitation worker to meet the demands of new residents and the new service area of Vancouver View Annexation. \$35,500 is budgeted to purchase additional containers, recycling bins, and yard debris containers. A new garbage truck is needed and is budgeted in the Equipment Rental Fund.

	Total Water-Sewer Fund	<u>\$2,727,404</u>	<u>\$2,447,135</u>	<u>\$2,092,503</u>

**FUNCTION**

The water-sewer operation of the city provides for furnishing domestic water and sanitary sewage disposal services to industrial, commercial and residential areas within the city and some surrounding areas.

**ACTIVITIES AND SERVICES**

The water budget provides for the source of supply operation and maintenance, pumping expenses, water treatment expenses, transmission and distribution, and accounting and administrative expenses of the water operation. This budget also accounts for the collection and treatment of sanitary sewage.

**COMMENTS ON BUDGET APPROPRIATIONS**

The number of employees in the Water-Sewer Department will remain the same as the prior year. There are no significant construction projects, just a few small ones. The water and sewer lines in Parker Estates will be upsized and are appropriated for \$67,000. \$50,000 is appropriated for an influent screening system at the sewage treatment plant and \$30,000 appropriated for rehabilitation of infiltration and inflow.

	Total CDBG Sewer Construction Fund	<u><u>\$205,977</u></u>

**FUNCTION**

The CDBG Sewer Construction Fund accounts for the installation of a sewer system in the NW Mitchell Street neighborhood and for the proceeds of Community Development Block Grant (CDBG) funds and city Water-Sewer funds.

**COMMENTS ON BUDGET APPROPRIATIONS**

This project will be funded by a \$192,977 grant from CDBG and \$13,000 from the Water-Sewer fund. The project also includes some water system improvements and street repairs.

**Annual Budget  
City of Camas, Washington**

Water Construction Fund 442	Water and Sewer Utility 00	<b>501 380</b>
--------------------------------	-------------------------------	----------------

	PROGRAM: Water and Sewer Service	Estimated Required 1995
501 380 00 65	Water-Sewer Construction Projects	<u>\$600,000</u>
	Total Water Construction Fund	<u><u>\$600,000</u></u>

**FUNCTION**

The Water Construction Fund accounts for the construction project and for the proceeds of a loan from the Community Economic Revitalization Board (CERB) for constructing a waterline intertie in the Fisher Basin area from the city's industrial park to the Lacamas reservoir.

**COMMENTS ON BUDGET APPROPRIATIONS**

The 18 inch diameter ductile iron pipe waterline will commence at the intersection of NW 43rd Avenue at NW Sierra Street and extend to the intersection of NW Pacific Rim Blvd. at NW Parker Street. The CERB loan defers any interest accrual for 4 years, then requires a 16 year payback at 5.85%.

	Total Equipment Rental	<u>\$615,327</u>	<u>\$978,511</u>	<u>\$430,251</u>

#### FUNCTION

The Equipment Rental Department furnishes mobile equipment to the city's other operating departments and maintains equipment not owned by the Equipment Rental Department.

#### ACTIVITIES AND SERVICES

The department maintains and replaces all mobile equipment for the city other than fire apparatus and emergency rescue ambulance equipment. The rental fund owns, operates, and maintains city repair and storage shops. Expenditures of the fund are reimbursed by renting the equipment owned by the department to the street, water, sanitary and other departments of the city. The fund also accounts for the operation, maintenance and rental of the pressure sewer cleaner equipment and street sweeper owned jointly by the cities of Camas and Washougal.

#### COMMENTS ON BUDGET APPROPRIATIONS

The new Operations Center was completed in 1994, but two additional storage buildings are needed for equipment and chemicals. The Hazard Chemical Storage building is appropriated in 1995 for \$4,000. \$108,000 is appropriated to replace a garbage truck, and another \$45,500 is appropriated to replace a mower, a car, a cushman for parking enforcement and other equipment.

--------------------------	--------------------	---------

	PROGRAM: Fire Control	Actual Expend 1993	Actual Approp 1994	Estimated Required 1995
522 950 20	Disability and Retirement: Personnel Benefits	<u>\$12,565</u>	<u>\$16,000</u>	<u>\$17,000</u>
	Total Firemen's Pension	<u>\$12,565</u>	<u>\$16,000</u>	<u>\$17,000</u>

**FUNCTION**

The Firemen's Pension budget provides for medical care and pension payments for the city's regular paid firefighters who were employed prior to January 1, 1971. Medical expenses for firefighters employed subsequent to January 1, 1971 must be paid by the city General Fund directly.

**COMMENTS ON BUDGET APPROPRIATIONS**

This budget provides for payments of pension benefits to firefighters employed prior to January 1, 1971. Firefighters retired subsequent to that date will be paid from the Law Enforcement Officers and Firefighters Retirement System administered by the State of Washington. Retired firefighter pensions are increased by an amount equal to the change in the Seattle consumer price index January to January each year. The city has only one firefighter retired under this system.
